

Aspira®
DRAINAGE SYSTEM

A NEW KIND OF FREEDOM

The Aspira® Drainage System is a compassionate home treatment option for end-stage cancer patients with malignant pleural effusions (MPE) and malignant ascites. Aspira allows patients to manage their symptoms at home, eliminating the need for frequent hospital visits.

PATIENT COMFORT

Gravity-based design produces a consistent pressure flow for minimized discomfort.

EASE-OF-USE

After connecting the drainage line to the catheter valve, one gentle squeeze will initiate drainage.

With the Aspira Drainage System, there is no risk of accidentally discharging vacuum. Vacuum is activated with one squeeze of the manual pump.

FASTER DRAINAGE

Faster drainage flow rate means more downtime for the patient.

DISTANCE LENGTH

The Aspira Drainage Catheter is 72 cm long. The Peritoneal Catheter has a space of 15 cm between the cuff to the proximal fenestration. The Pleural Catheter has a space of 11 cm between the cuff to the proximal fenestration.

With three placement method options (antegrade, retrograde and over-the-wire), and multiple kit options designed to accommodate customer and patient needs, the Aspira Drainage System gives you more placement flexibility than the PleurX[®] Drainage System.

ENHANCED TUNNELER DESIGN

- Malleable and pre-bent tunneler
- Tunneler is 37% longer than the PleurX tunneler for placement flexibility*

Aspira Drainage System Tunneler

Dilator

Splittable Sheath and Introducer

18G Introducer Needle

VALVED INTRODUCER

- Peel-away introducer sheath helps reduce fluid leakage and/or air aspiration during placement

REPLACEABLE VALVE

- Valve can be replaced without the need for catheter exchange

PRELOADED STIFFENING STYLET

- Stiffens catheter to facilitate insertion
- Stylet with Hydro-Glide™ coating designed to decrease fluid leakage during insertion

15.5F ASPIRA DRAINAGE CATHETER

- Distally trimmable to accommodate smaller cavities
- Proximally trimmable to enable valve replacement

More consistent pressure during drainage.

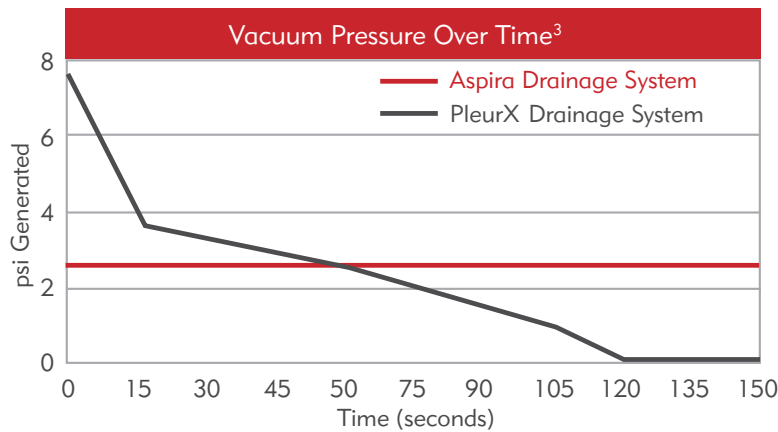

The Aspira Drainage System is designed to drain quickly without the use of high pressure. Low, consistent vacuum pressure is preferable to high vacuum pressure that may cause patient discomfort.

Simulated testing shows the Aspira Drainage System:

- Has a 68% higher average flow rate than the PleurX Drainage system.^{1,2,4}
- Demonstrates consistent pressure and flow rate, unlike the PleurX Drainage System, which has a high initial vacuum that drops quickly.³
- Has more fenestrations⁴ and a larger valve¹ than the PleurX Drainage System.

Aspira kit components

INSERTION TRAY COMPONENTS

- 1 – 15.5F Peritoneal or Pleural Drainage Catheter with Stylet
- 1 - #11 Futura® Safety Scalpel
- 1 – 18G Introducer Needle
- 1 – Guide Wire 0.038" x 80 cm J-tip
- 1 – Dilator 8F
- 1 – Dilator 12F
- 1 – 16.5F Splittable Sheath Introducer
- 1 – Tunneler
- 1 – Slide Clamp
- 1 – Aspira Valve Assembly
- 1 – Aspira Valve Cap
- 1 – Suture Wing
- 1 – Luer Adapter
- 1 – Universal Tubing Adapter
- 2 – Split Gauze 4" x 4" (10 cm x 10 cm)
- 6 – Gauze 4" x 4" (10 cm x 10 cm)
- 1 – Surgical Tape
- 1 – Adhesive Dressing

DRESSING KIT COMPONENTS

- 1 – Adhesive Dressing
- 2 – Split Gauze 4" x 4" (10 cm x 10 cm)
- 4 – Gauze 4" x 4" (10 cm x 10 cm)
- 1 – Gloves (1 Pair)
- 1 – Tape Strips (3 Per)
- 3 – Alcohol Wipe
- 1 – CSR Wrap

DRAINAGE KIT COMPONENTS

- 1 – Drainage Bag (1,000 mL)
- 2 – Alcohol Wipe
- 1 – Slide Clamp
- 1 – Tape Strips (3 Per)
- 1 – Aspira Valve Cap

LUER ADAPTER COMPONENTS

- 1 – Luer Adapter
- 1 – Aspira Valve Cap

UNIVERSAL TUBING ADAPTER COMPONENTS

- 1 – Universal Tubing Adapter
- 1 – Aspira Valve Cap

REPAIR KIT COMPONENTS

- 1 – Slide Clamp
- 1 – Aspira Valve Assembly
- 1 – Aspira Valve Cap

SIMPLE TO USE

A simple and easy-to-use design makes the Aspira Drainage System an excellent choice for caregivers and patients.

EASY OCCLUSION MANAGEMENT

A replaceable valve allows for catheter repair, rather than catheter exchange.

** Packaged 5 units per box

68%

less storage space*

Twenty Aspira drainage bags and dressings require approximately the same amount of space as one box of 4 PleurX bottles and dressings, reducing storage space and waste.

Visit myaspira.com for more information.

* Data on file. PleurX packaging measurements represent five boxes of PleurX Starter Kits containing four 1,000 mL drainage bottles and dressings per box. Aspira packaging measurements represent one box of an Aspira Essential Kit containing twenty 1,000 mL drainage bags and dressings per box.
